

Ultrasonography Actualities Course, Chişinău, 9-10 July, 2010

From 9-th to 10-th of July 2010, under the cooperation between the Universities of Medicine and Pharmacy “Iuliu Haţieganu” Cluj-Napoca and “Nicolae Testemiţanu” Chişinău, at the invitation of the Moldovan Society of Ultrasound in Medicine and Biology, a delegation of romanian doctors attended the International course “Ultrasound Actualities”. The visit was achieved through support provided by General Electric Company branches in Romania and Moldova.

Romanian team of 14 doctors was headed by Prof. Dr. Radu Badea (president of SRUMB), Prof. Dr. Petru Mircea (initiator of this collaboration) and Prof. Dr. Sorin Duda (pro-rector of UMF „I. Haţieganu”).

Lectures supported by Romanian doctors have been

integrated into a broad theme, touching virtually all ultrasound techniques application areas. During the two days event, increased interest has led to numerous and constant presence of over 200 participants.

Organizational efforts of the SUMB Moldova president Dr. Vasile Ţurcanu resulted in an event that exceeded all requirements. We were particularly impressed by the atmosphere of friendship and specific hospitality of our brothers from over the Prut.

Thanks addressed to the romanian lecturers and the message sent to the rector of UMF „I. Haţieganu” by the rector of UMF „Nicolae Testemiţanu” confirms the continuation of these exchanges in the field of ultrasound education.

Assist. Prof. Dan Vasilescu
Radiology Department, “Iuliu Haţieganu”
University of Medicine and Pharmacy Cluj-Napoca
